

Development and Quality Committee:

- Promoting a culture of quality and academic accreditation through organizing meetings and workshops in the fields of quality assurance and academic accreditation.
- Monitoring the implementation timeline of development, quality, and program accreditation activities issued by the Deanship of Development and Quality.
- Supervising the updating and review of course and academic program specifications and reports.
- Developing the operational plans for academic programs, monitoring the measurement of their performance indicators, and proposing improvement plans.
- Collecting and analyzing program performance indicators on a regular basis.
- Coordinating with department committees to collect the required data for preparing the annual report.
- Following up on the updating of academic and administrative regulations, procedures, and forms in accordance with quality standards.
- Documenting all procedures and data related to quality assurance and accreditation activities.
