Courses Taught

Since after my graduation in 1998, I am involved in teaching at university level and have taught many courses at the graduate and undergraduate level mainly related to the domains of *Software Engineering, Information Systems/Databases and as required my the management*. Major responsibility is to prepare the course plan, prepare lectures and labs, deliver the lectures and conduct the exam.

In Additions to the courses mentioned below, I have taught several courses as required by the department/ University.

MS/Graduate Level Courses

1. Component-Based Software Engineering

2. Object Oriented Analysis and Design
3. And many more as required by the management.

1. Software Engineering
2. System Analysis and Design
3. Object Oriented Software Engineering
4. Software Project Management
5. Databases Management Systems
6. Data Warehousing and Data Mining
7. Distributed Databases
8. And many more as required by the management.

BS/Undergraduate Level Courses
