REFERENCES

It is preferable that you have a minimum of two professional references (that is, people who have worked with you in a professional context, such as a Head of School, Dean, Senior Researcher. Choose your referee carefully in accordance with the position requirements, eg teaching or research. Always check with the person first before including their name and advise them each time you apply for a position. Also provide them with the details of the position and why you have applied so they have an opportunity to consider their input.
