

Curriculum Vitae

Personal Information

Name: Ans Daifullah Alghamdi.

Email: ans@alghamdi.dev

Twitter: @0x0636

Research Interests

My main interest is artificial intelligence and the implementation of its advances in real world scenarios. More specifically, I'm interested in filling the gap between human communication and computer understanding using natural language processing.

Education

PhD in Computer Science. 2019.

University of Essex.

MSc in Advanced Web Application. 2011.

University of Essex.

BEd in Teaching Computer Science. 2006

Teachers' College in Abha (King Khalid University)

Work experience

Assistant Professor. 2019 - present.

Albaha University.

Lecturer. 2014 - 2019.

Albaha University.

Teaching Assistant. 2008 - 2014.

Albaha University.

Teaching Assistant. 2007 - 2008.

King Khalid University.

Awards

HRH Prince Khalid Al-Faisal award for higher education (2006).

Royal Embassy of Saudi Arabia Cultural Bureau's scientific excellence award (2014).

Management Roles

Head of community engagement unit at CSIT colleges.

Head of e-learning unite at CSIT colleges.

Head of academic affairs at Teachers' college (Bisha).
Head of labs unit at Teachers' college (Bisha).

Committee memberships

Scientific research committee at SC department.
MSc in Artificial Intelligence committee.
Quality assurance committee at CSIT college.
Quality assurance committee at SC department.
Labs committee at SC department.

Scientific society memberships

BCS: The British Computer Society.
ACM: Association for Computing Machinery.
IEEE: Institute of Electrical and Electronics Engineers.

Talks

DevCon1, UK Data Archive (2014).
DevCon1, UK Data Archive (2013).
Flatlands workshop, University of Cambridge (2013).
Reviewer in the Fourth CEEC, University of Essex (2012).

Publication

The use of sentiment analysis in an Immersive Education Environment to Measure Student Satisfaction and Engagement, 1st Immersive Learning Research Network Conference (iLRN'15), Prague, Czech Republic, July 15th, 2015.
Active expert learning for the Digital Humanities, semantic technologies for research in the humanities and social sciences (STRiX), Gothenburg, Sweden, November 24-25, 2015.
Personalized and Social Active Learning, 7th Saudi Student Conference, Edinburgh, Scotland, United Kingdom, February 1-2, 2014.
RESTful Web APIs, An attempt to extend PhraseDetective.org functionalities, Saudi Scientific International Conference, Uxbridge, October 10th, 2012.
