## B. Course Objectives and Learning Outcomes

<p><b>1. Course Description:</b> This course is an introduction to a project or investment appraisal designed to develop student's ability to undertake complex feasibility studies. It comprises how to conduct the detailed feasibility study (marketing, technical, financing and financial). It also with includes evaluating the proposed projects and to choose among them.</p>
<p><b>2. Course Main Objective:</b> This course develops a student's ability to undertake complex feasibility studies. Students will learn these skills and techniques through performing various feasibility studies of differing size</p>

and complexity. A feasibility study is designed to establish whether a project or initiative is worth the investment in time and money needed to get it off the ground. Of course, this includes the cost of developing the initiative, but it also looks at the availability of funding, both to initiate the project and to keep it going.
