### Personal Statement

I have a passion for languages. I love the communication and expansion that comes with the understanding of others cultures, people and countries through their unique way of self-expression. But I also a passion for physics. I love understanding how energy works and of spiritual technology as a tool to manifest thoughts into reality.

- Teacher in several university institutes with modern and effective teaching methods and with solid experience in terms of transmission of knowledge. Holder of a doctorate in physics, I have an experience of 5 years in the field, and I have an excellent track record concerning my skills of instruction.

- Excellent skills in teaching lectures to students, facilitating discussion and planning hands-on activities to enhance learning. Expertise in constructive pedagogical approaches.

### Career objective

I am interested in working with an organization at the cutting edge of the innovation in education, in need of a qualified communicator with the objective of influencing society towards trends that aid the evolution of human potential. I believe that I have a significant role to play as a mentor and educator to create change through the tool of communication.

---

### Teaching experience

---

#### **Assistant professor**

**Sep 2017 – June 2023**

Faculty of Sciences and Arts – Al Mandek, Al Baha, Saudi Arabia.
