# Create a Wiki

Wiki is an effective tool that aims to activate collaborative learning among students by creating an interactive space within the course where students can add and view uploaded content and contribute to editing and comment on it. This tool supports writing texts, adding images, videos, and more.
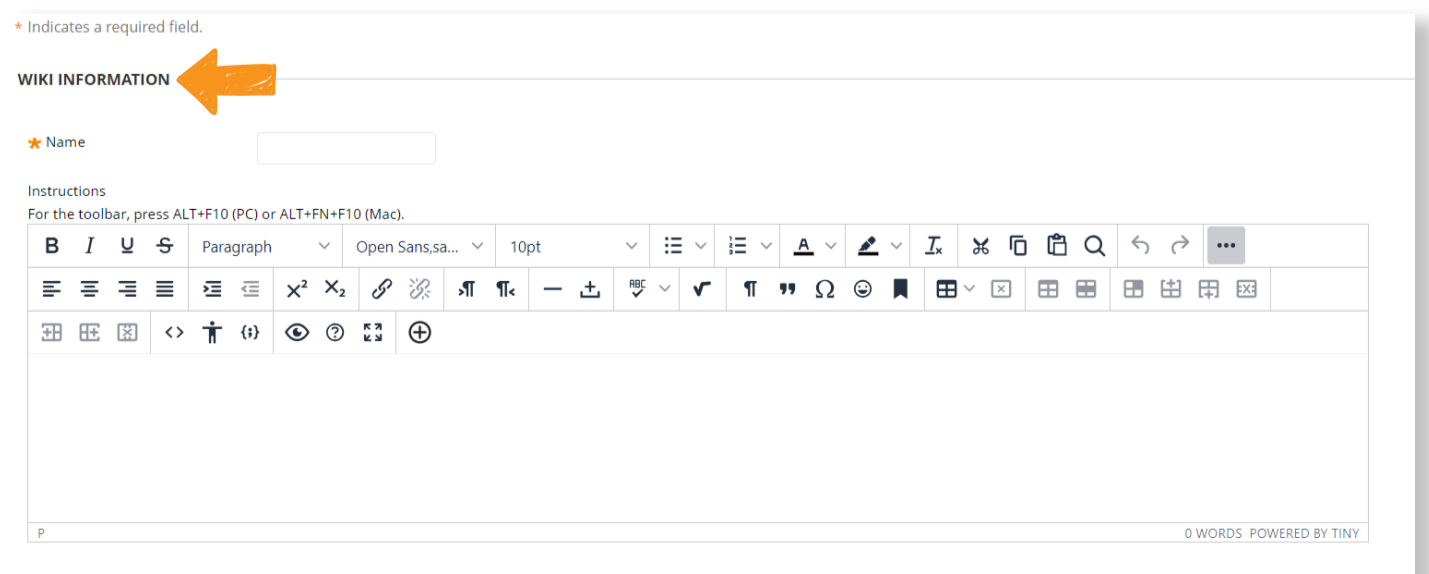

To create a Wiki, please follow these steps:

1 Go to the main course menu and choose where you want to create a Wiki, then click on Tools and choose Wikis.

2 From Create Link: Wiki page click Create New Wiki, then click Next.

Create Link: Wiki
Add a Link to the Wiki listing page or a specific Wiki in a Content Area. This creates a streamlined experience where users interact with each other in the same area where they discover content. A link can connect to an existing Wiki or a new Wiki can be created and linked.

5 From a Wiki Participation, the editing status of students can be controlled through Student Access, as follows:

● Closed to Editing: This option is selected when the faculty member wants to be the only one who will write and edit on the page, as well as to prevent any editing or sharing of the content.

● Open to Editing: This option is selected when a faculty member wants to allow students to edit Wiki pages.

You can also allow or prevent students from writing comments on a Wiki page from Student Comment Access by selecting Closed to Commenting or Open to Commenting.

Note: Student access settings can be changed at any time.
