

Publish the test to the assessment plan

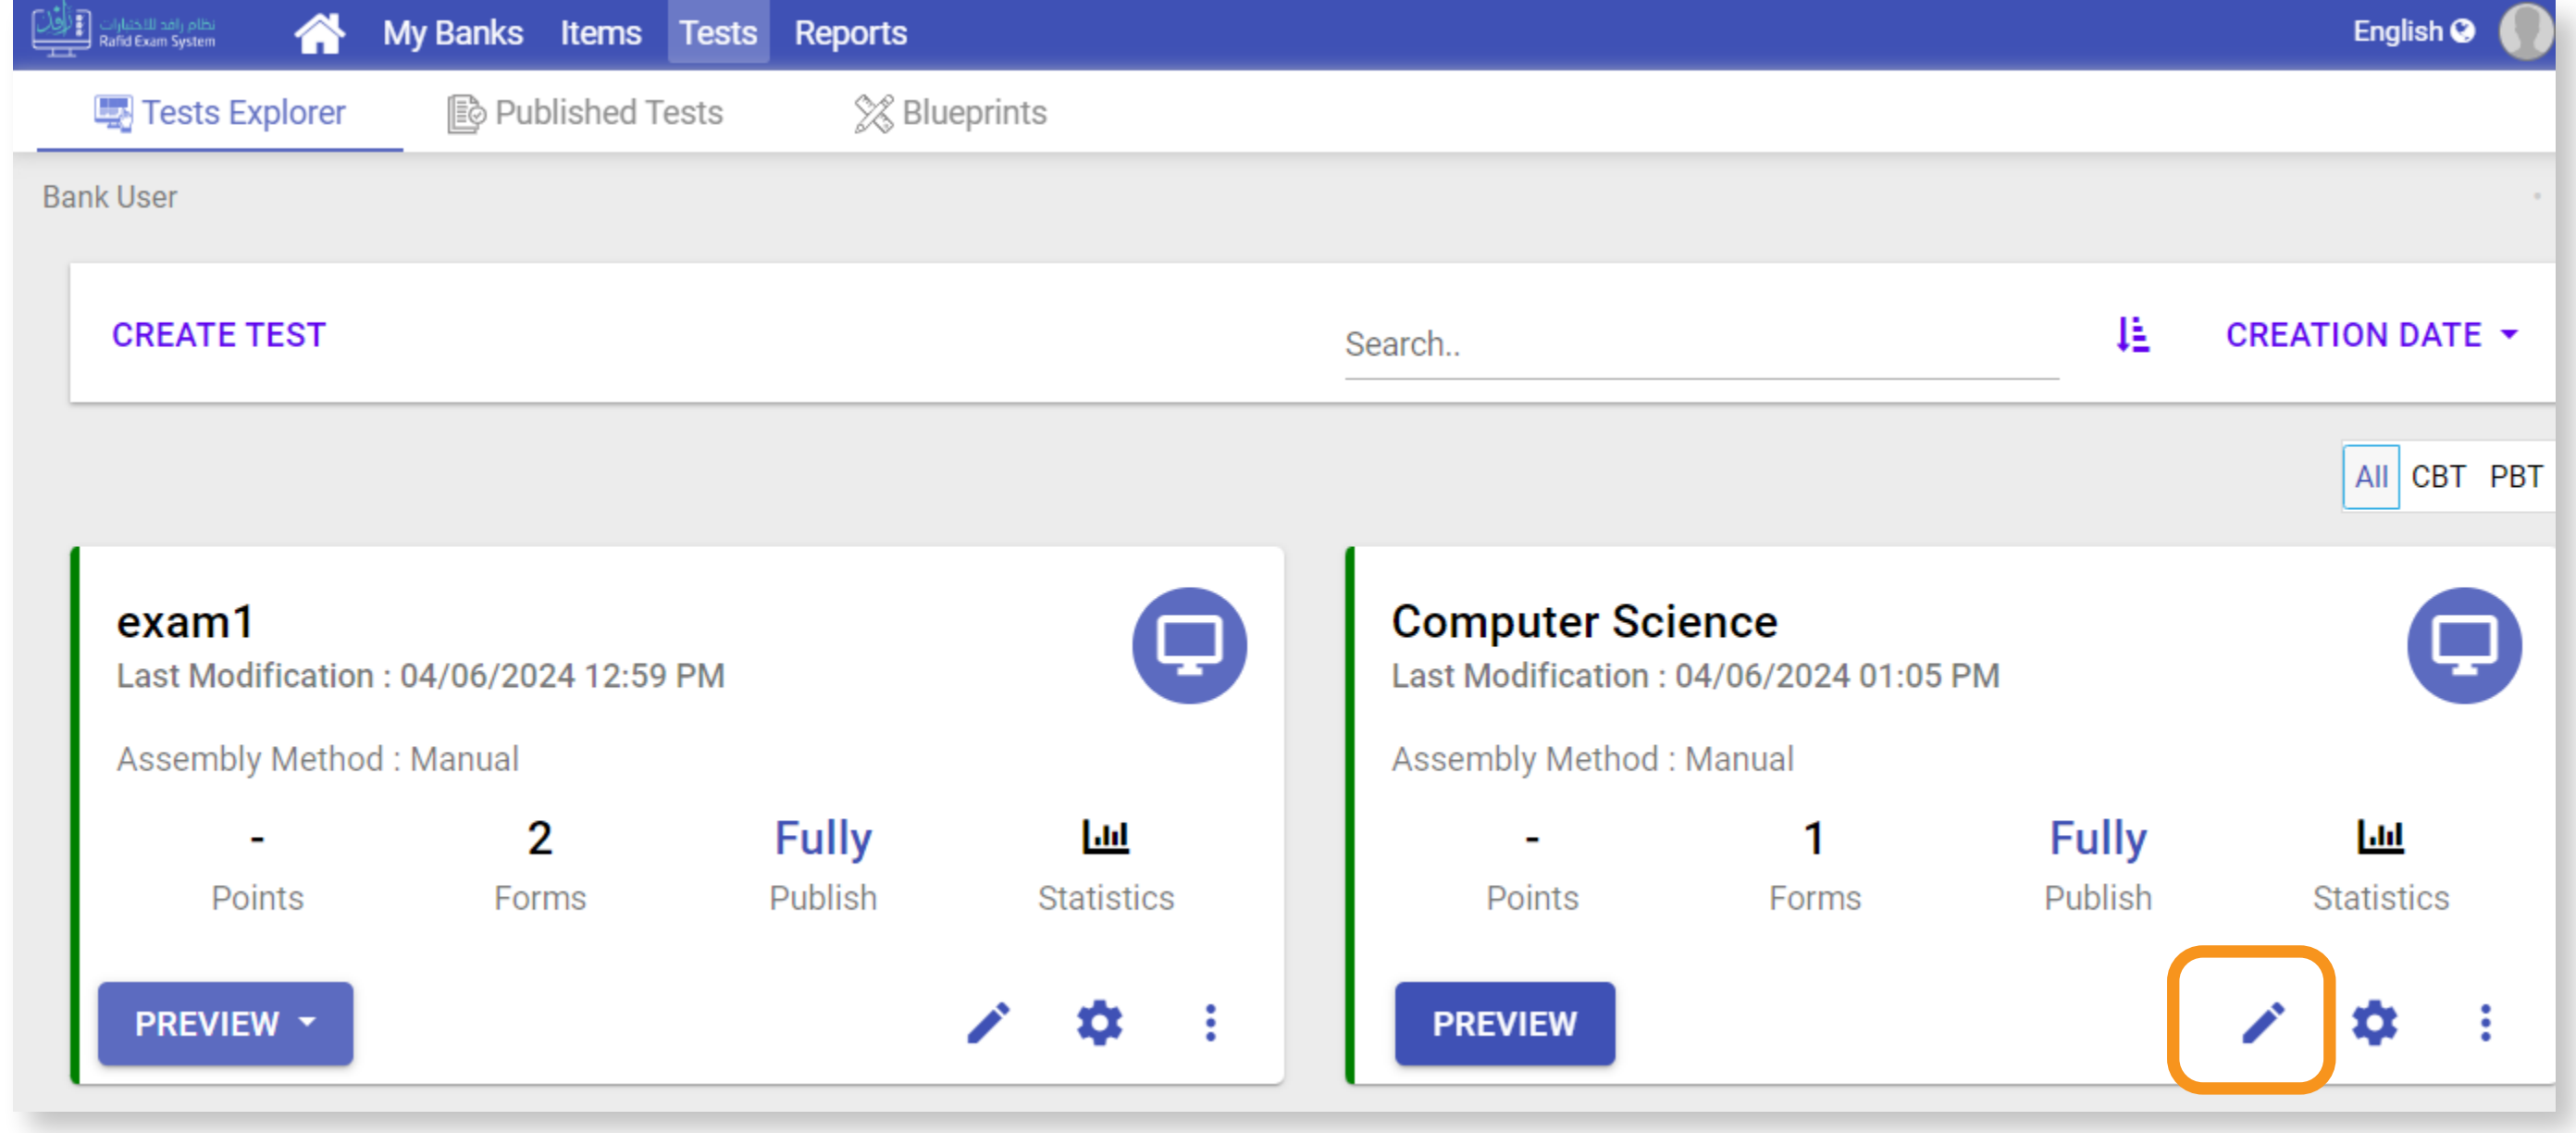

- 1 After entering the system, select Bank User role by clicking on your profile picture, then click on (Customize), select (Bank User), click on Done.

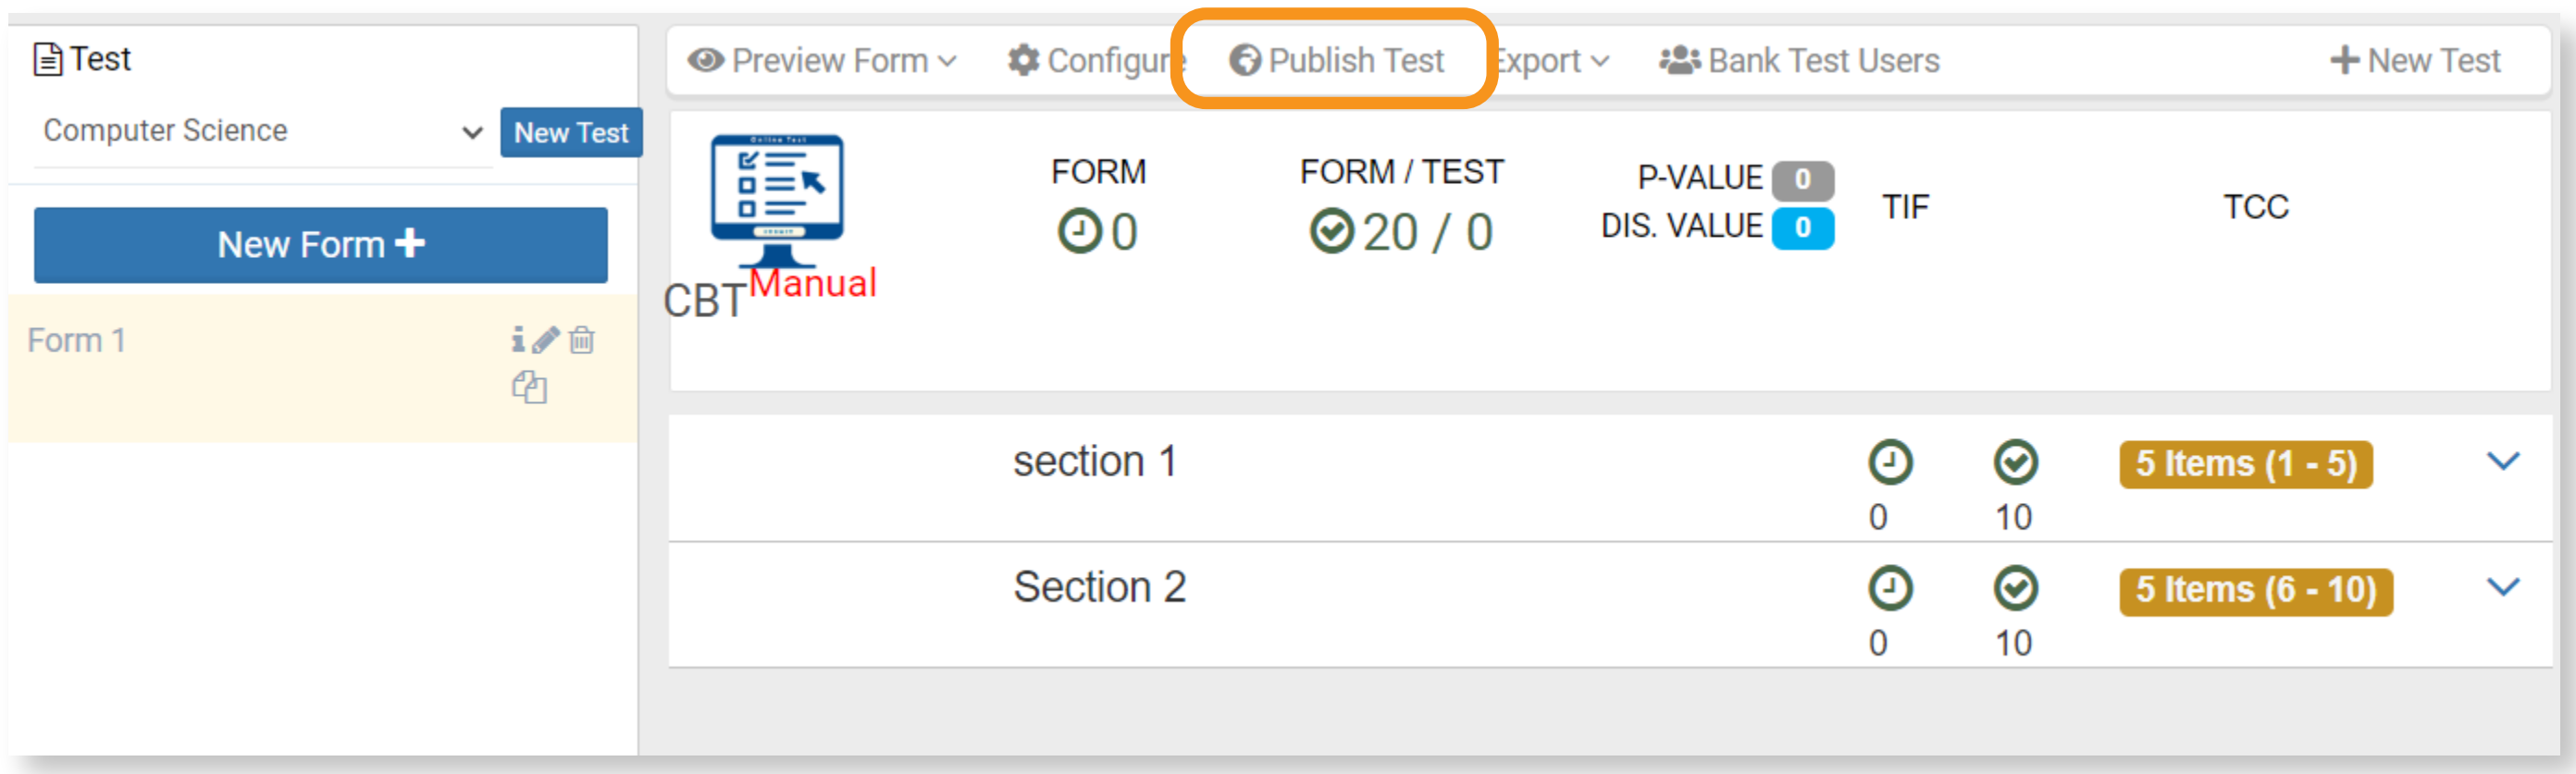

- 2 From the menu bar, select Tests.

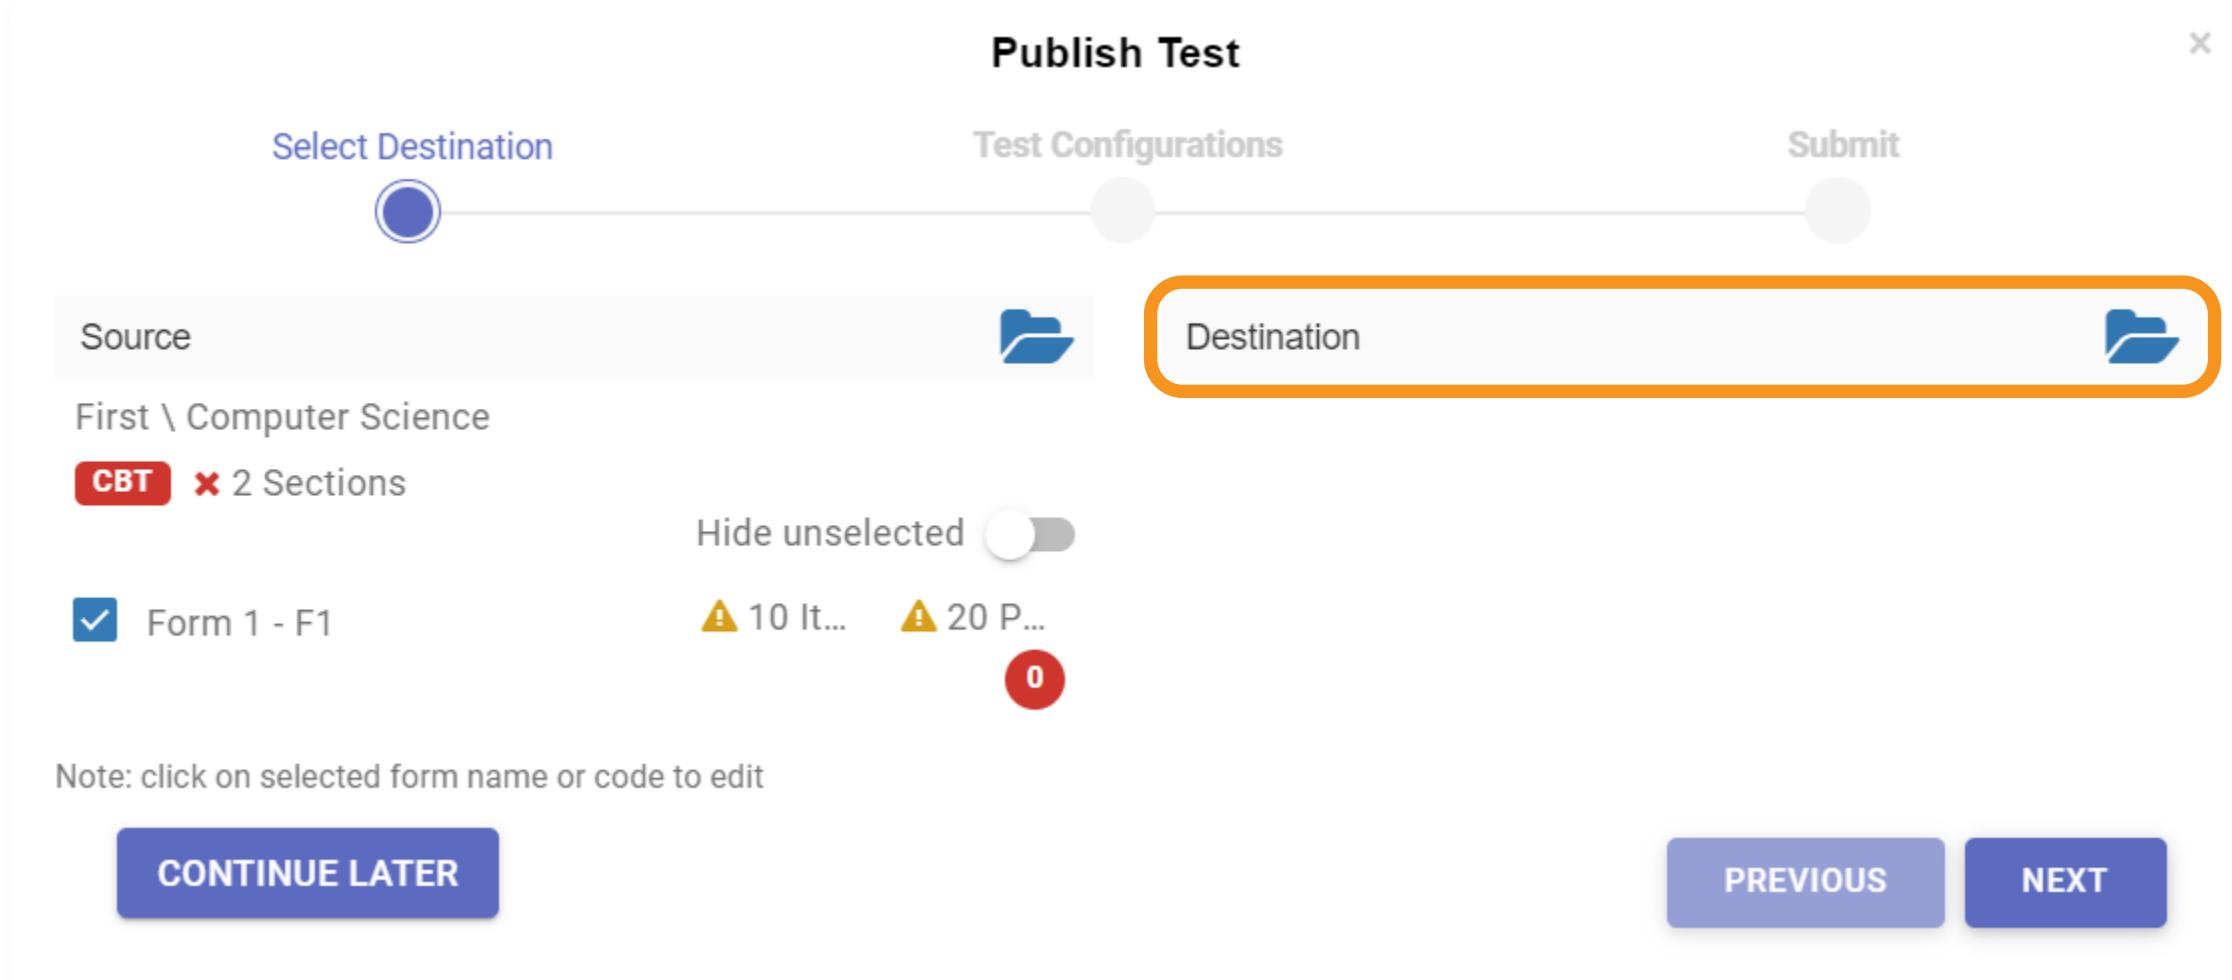

- 3 Click on the edit icon in the test you want to publish.

- 4 Click on Publish Test.

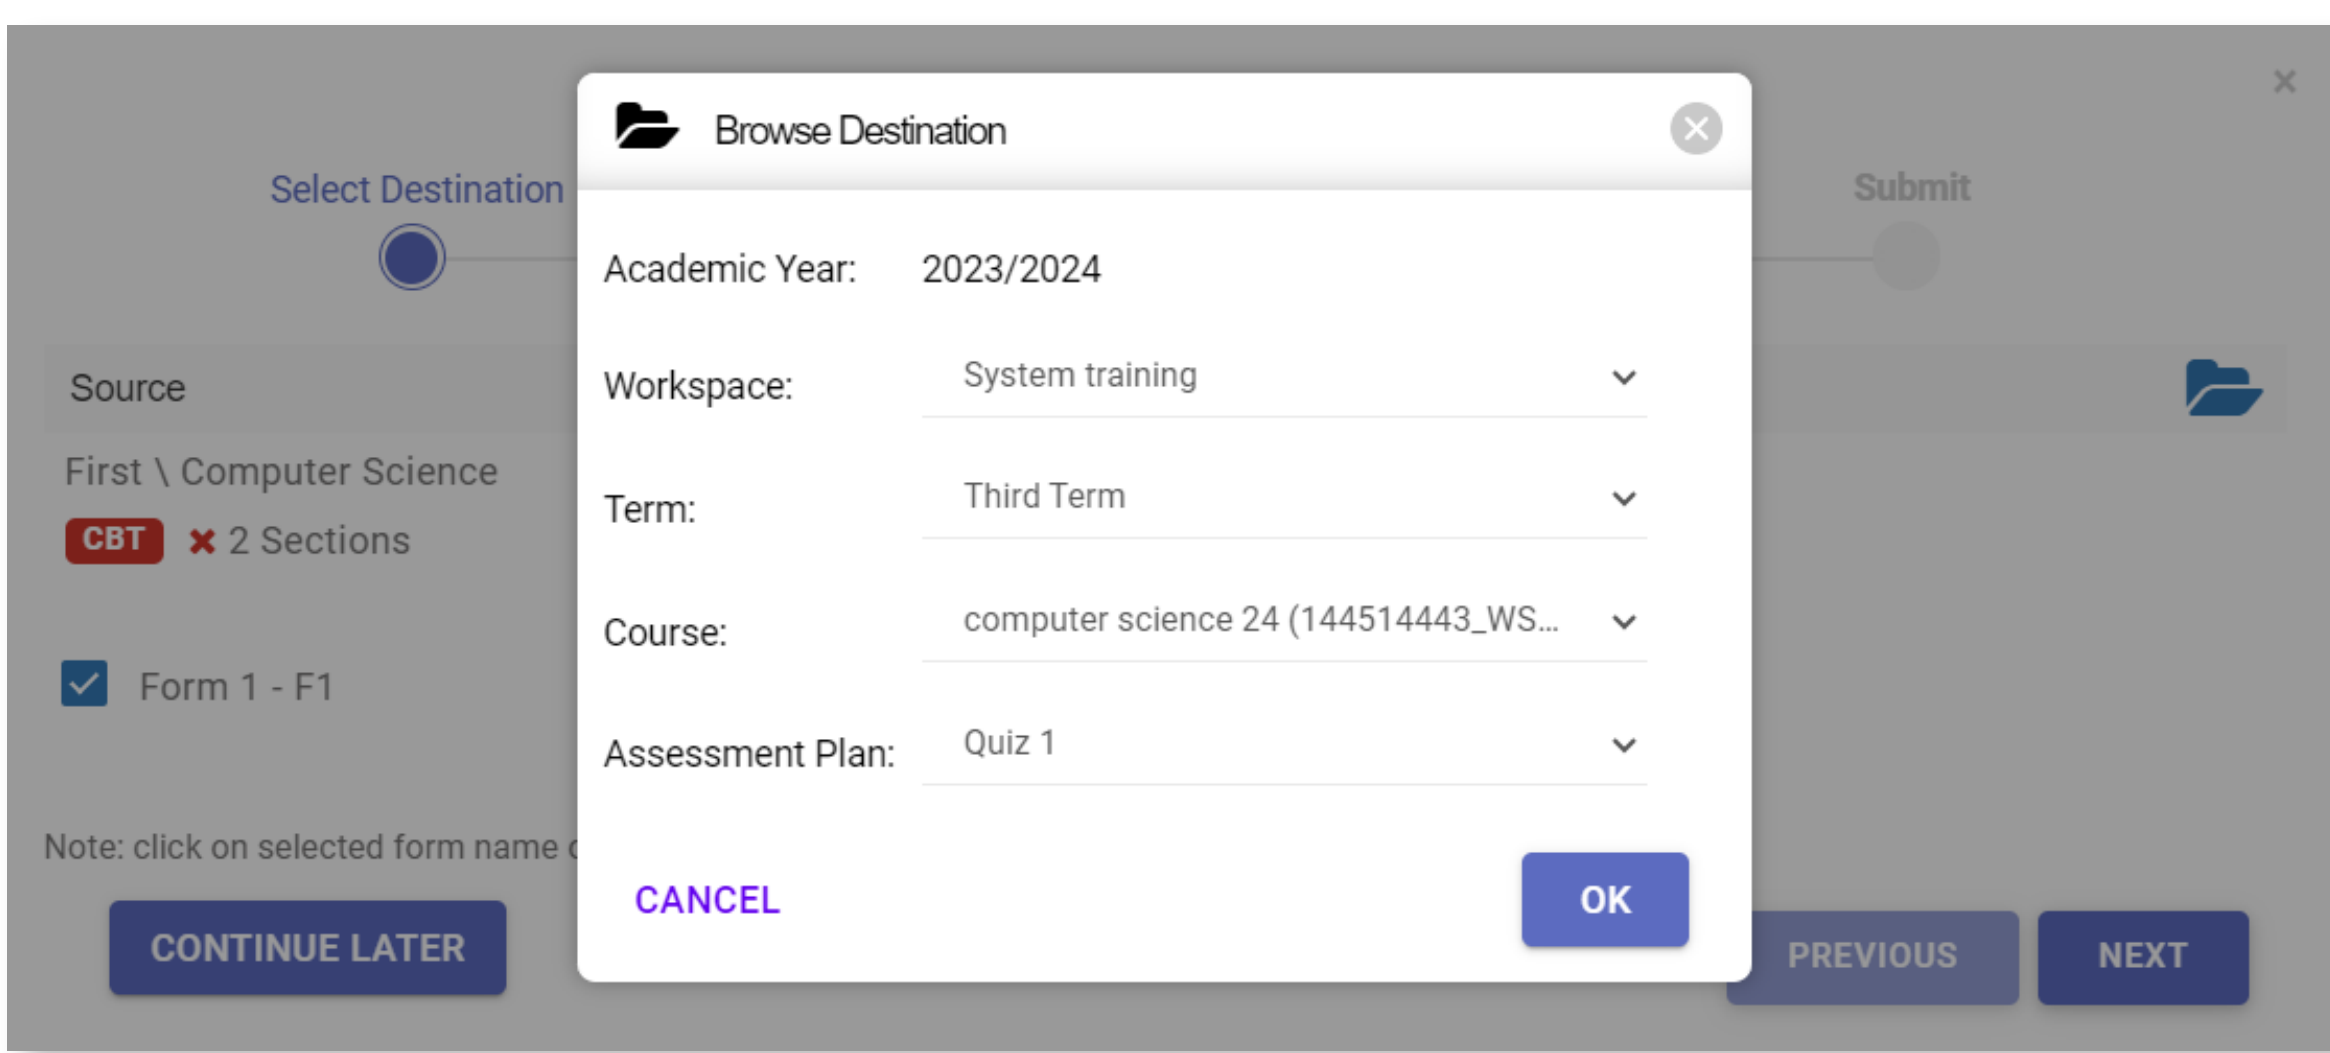

- 5 Select the test form and click on the destination.

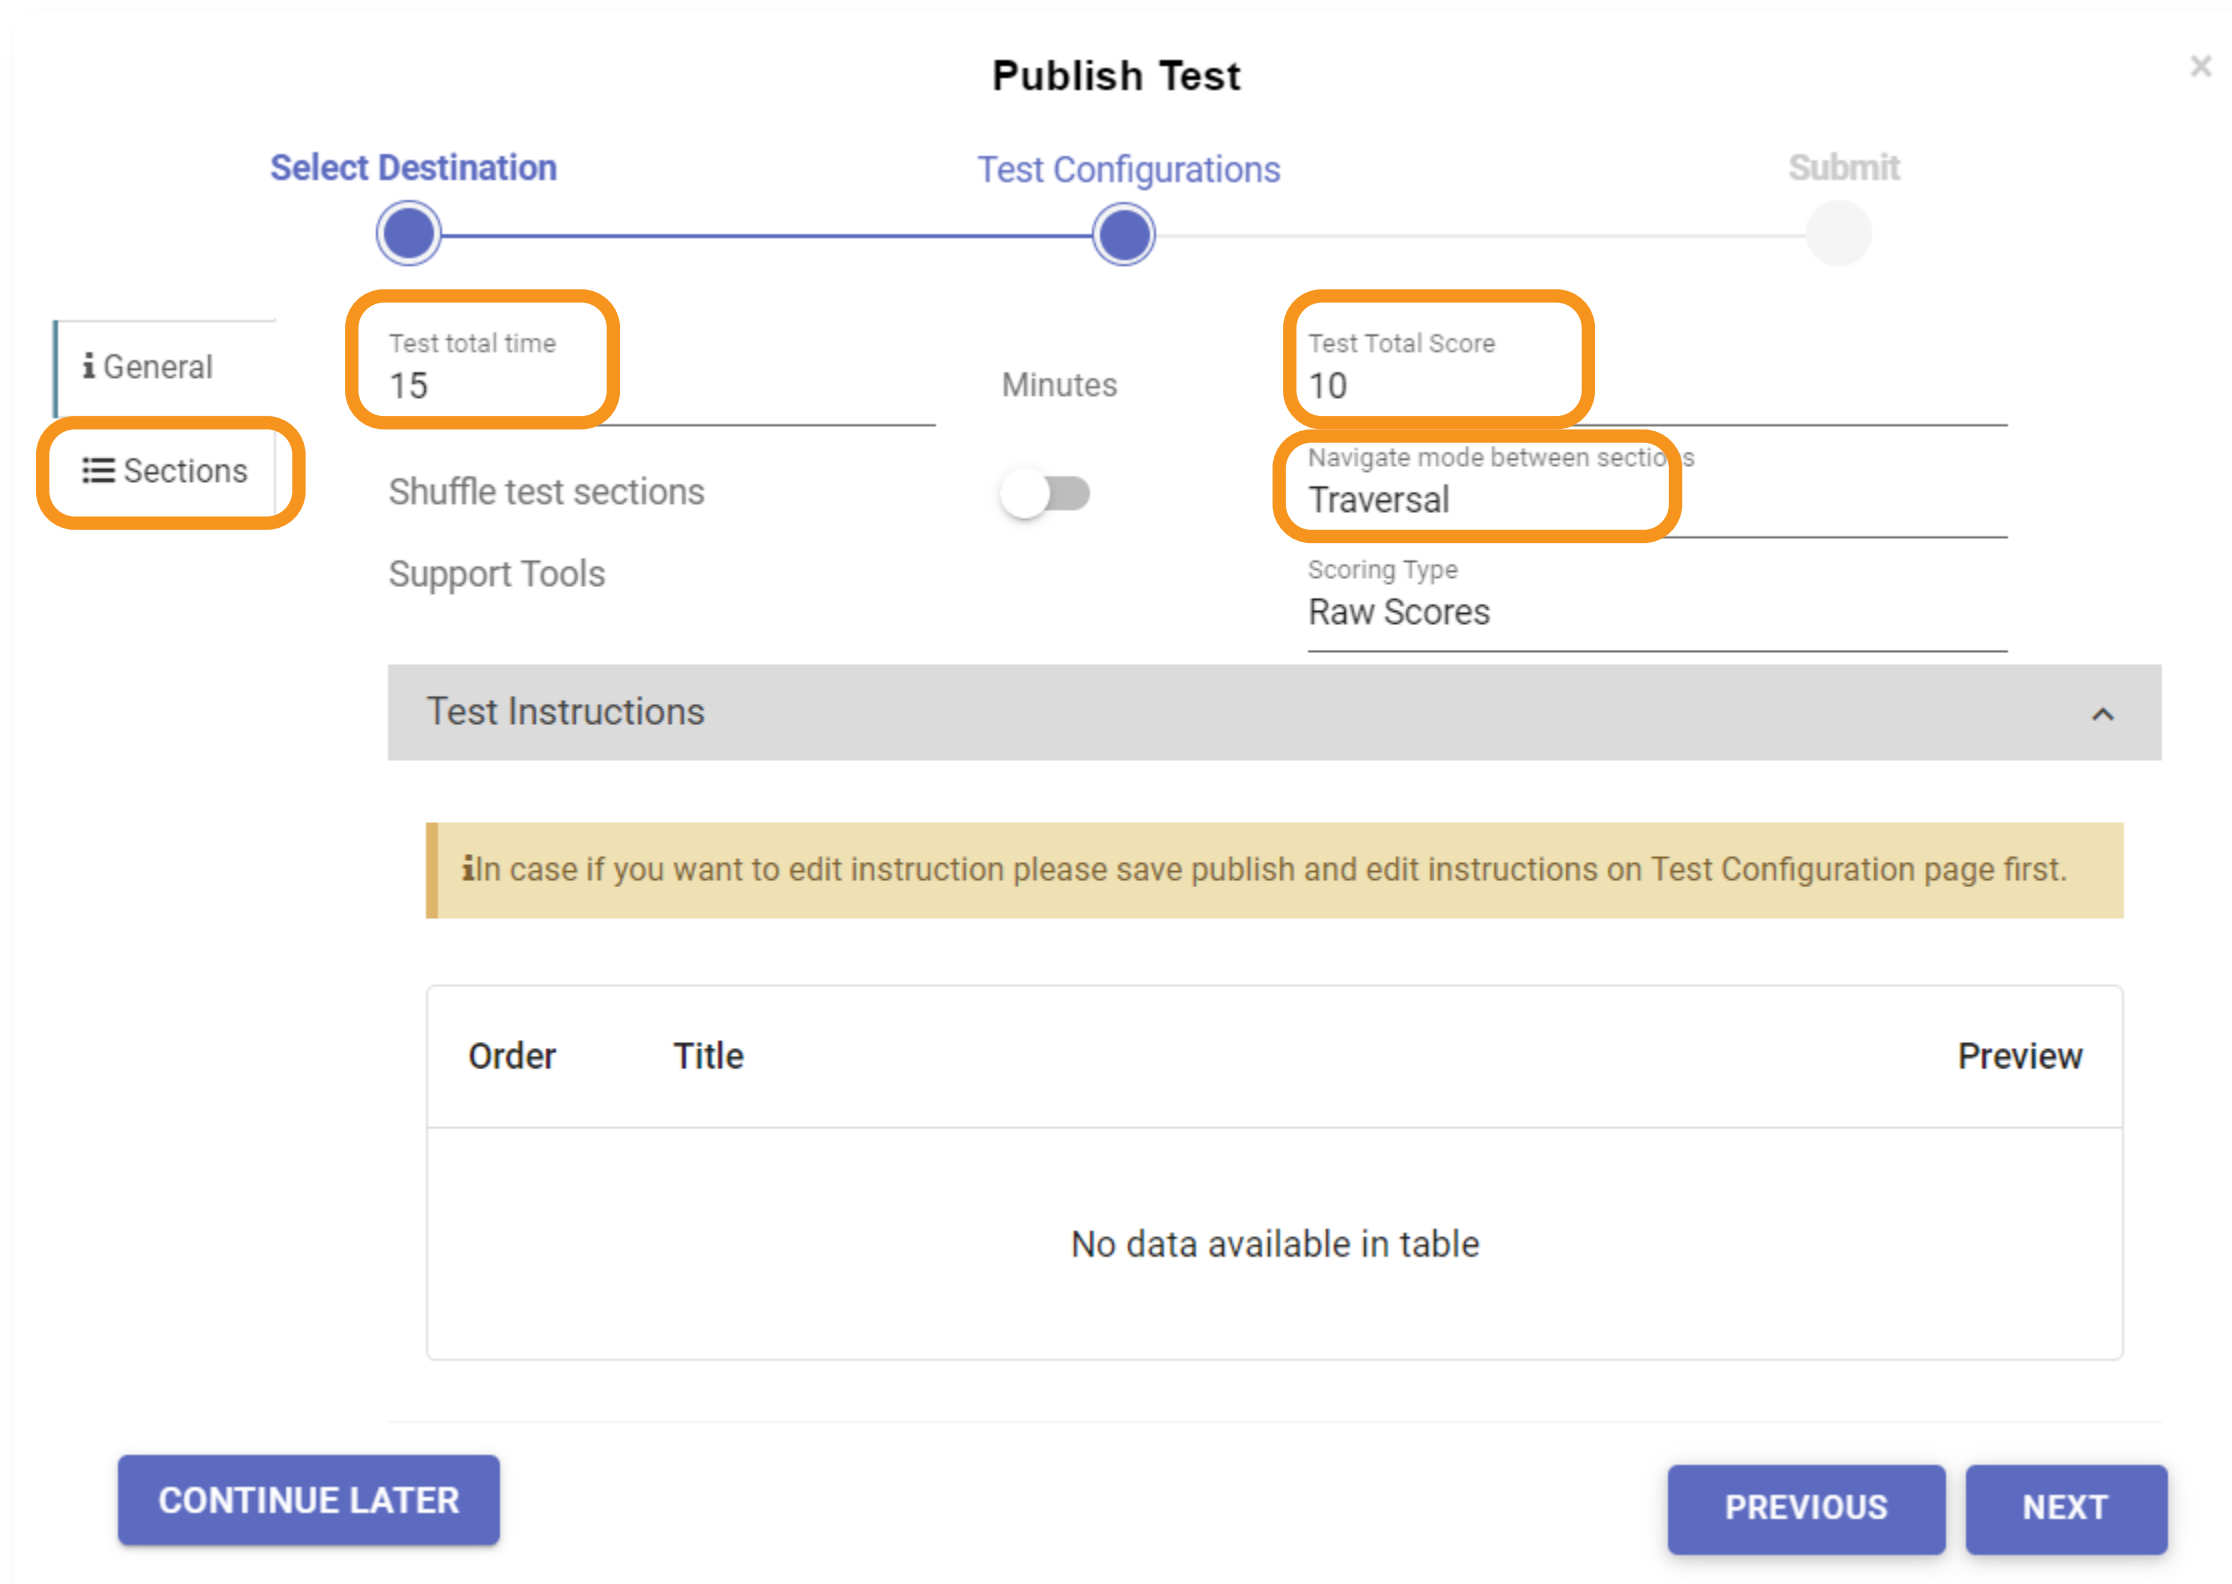

- 6 Select the required data, click OK then Next.

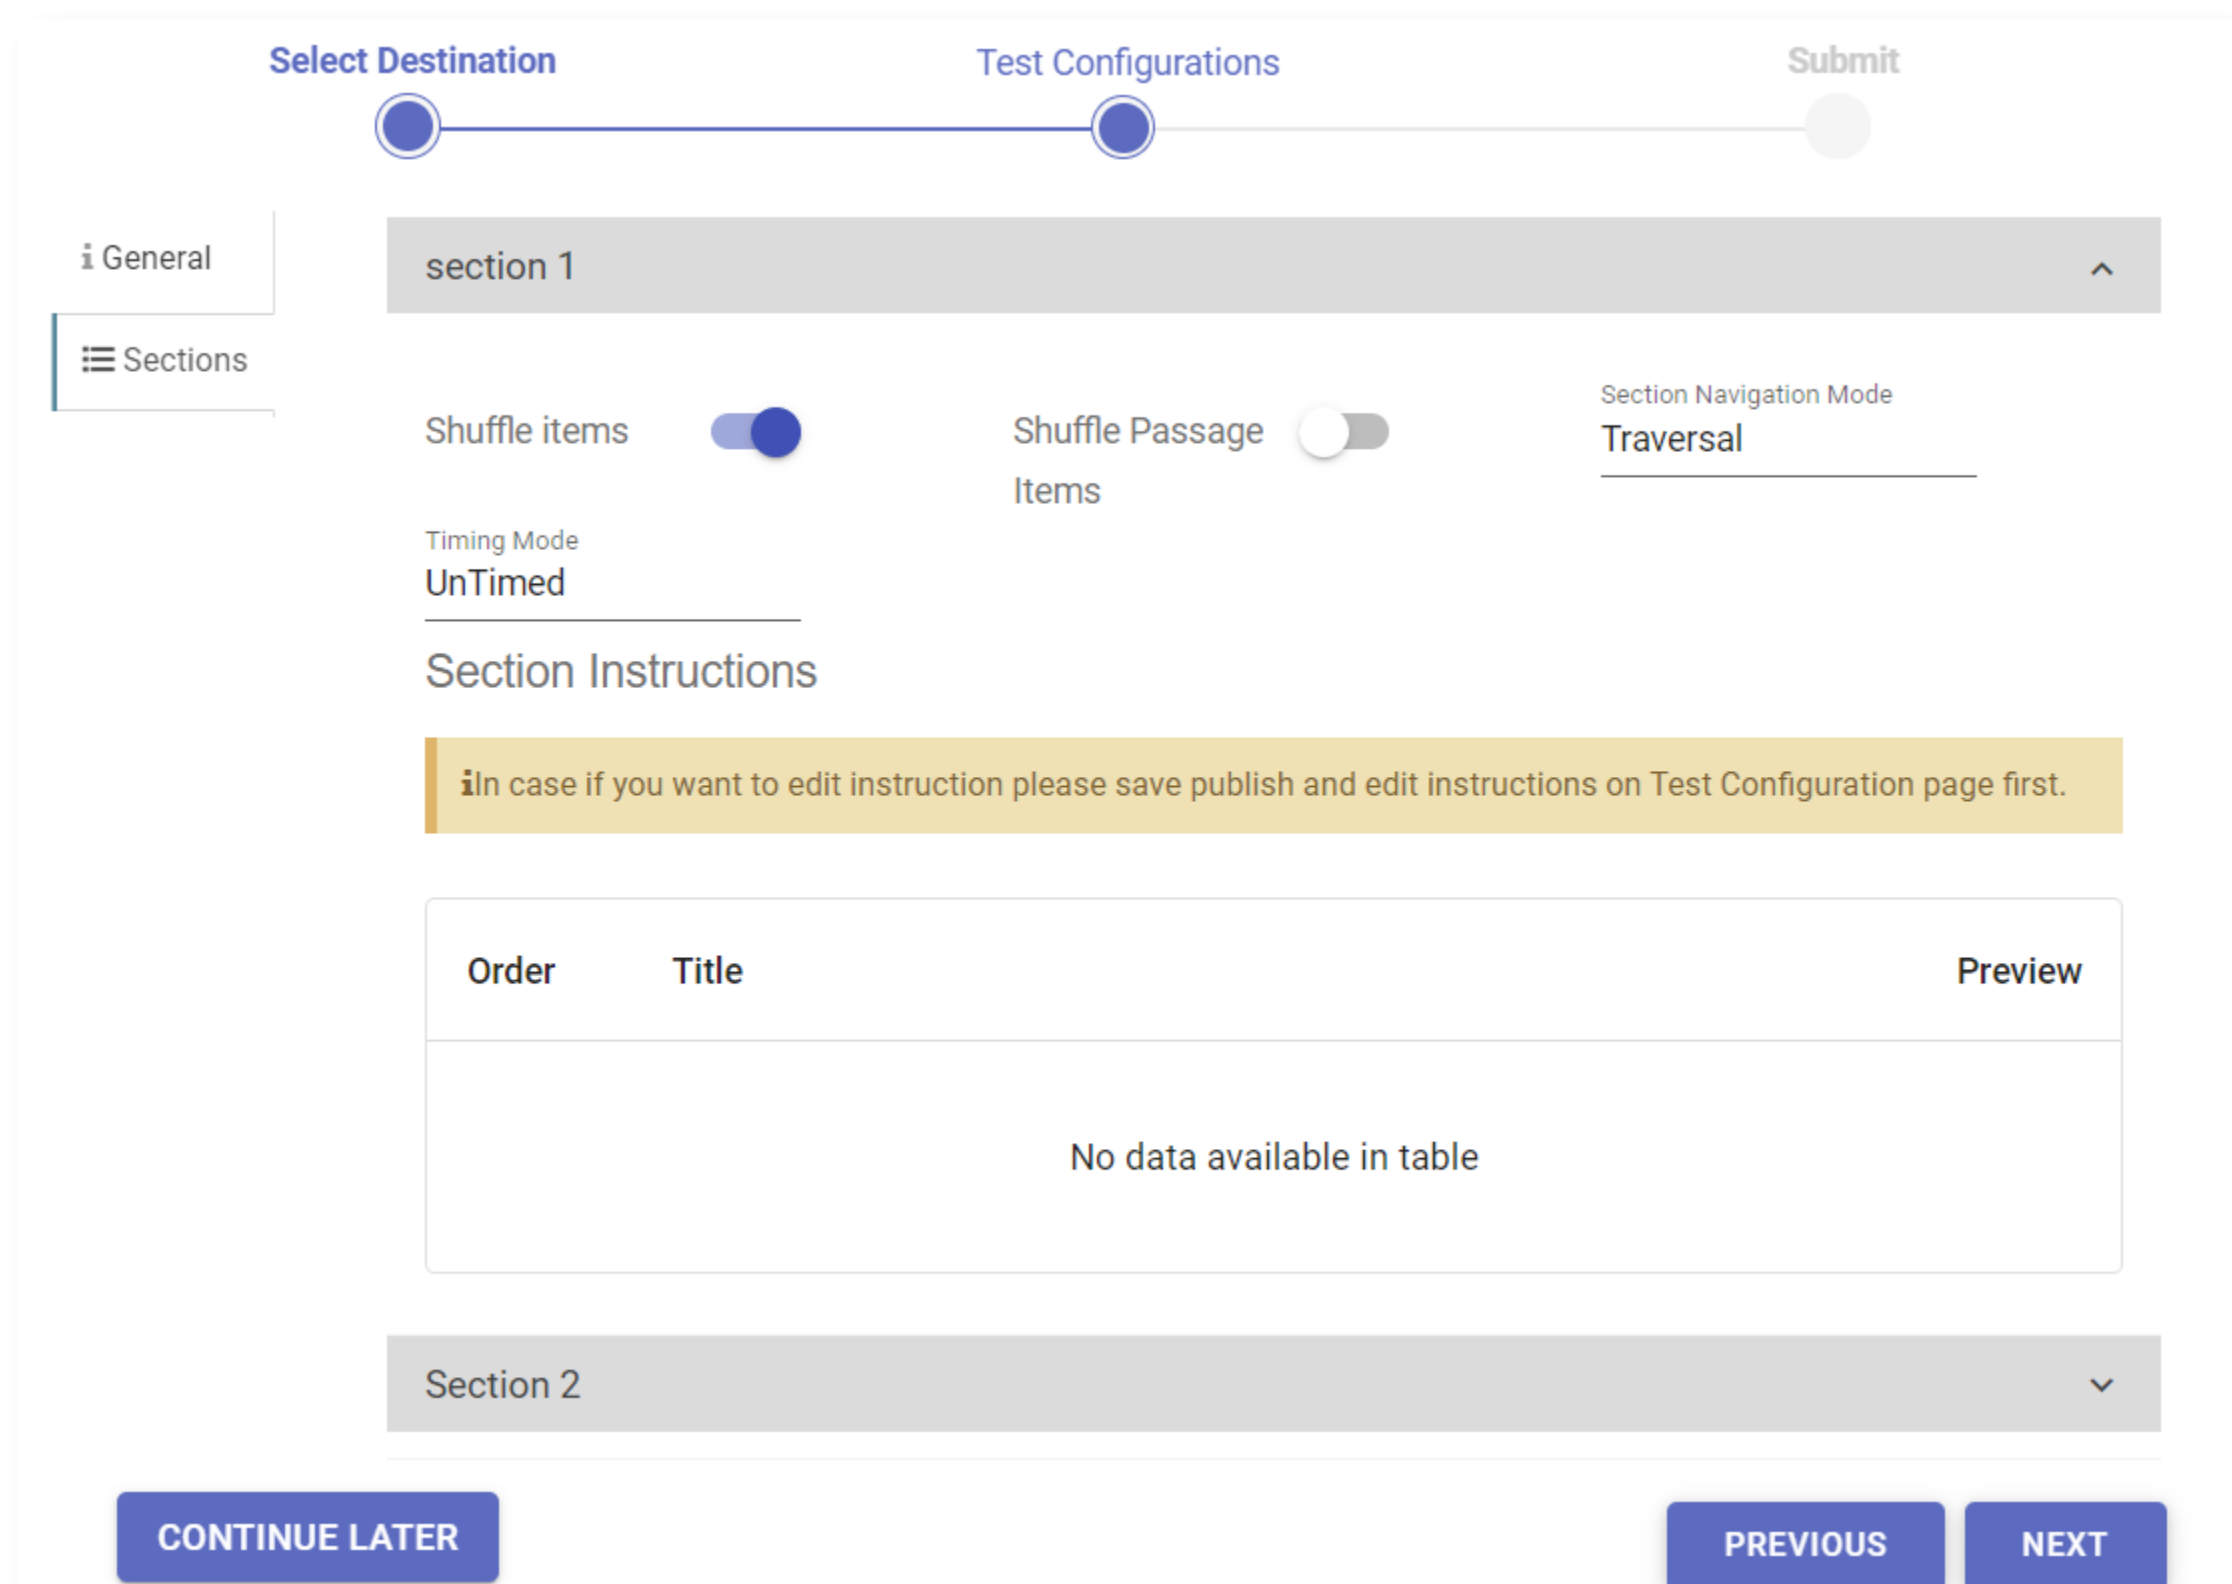

The Workspace represents the college in which the course is taught From the assessment plan, select the previously created folder for exam, to know how to create it, view the (Create an assessment plan and add a test) guide.

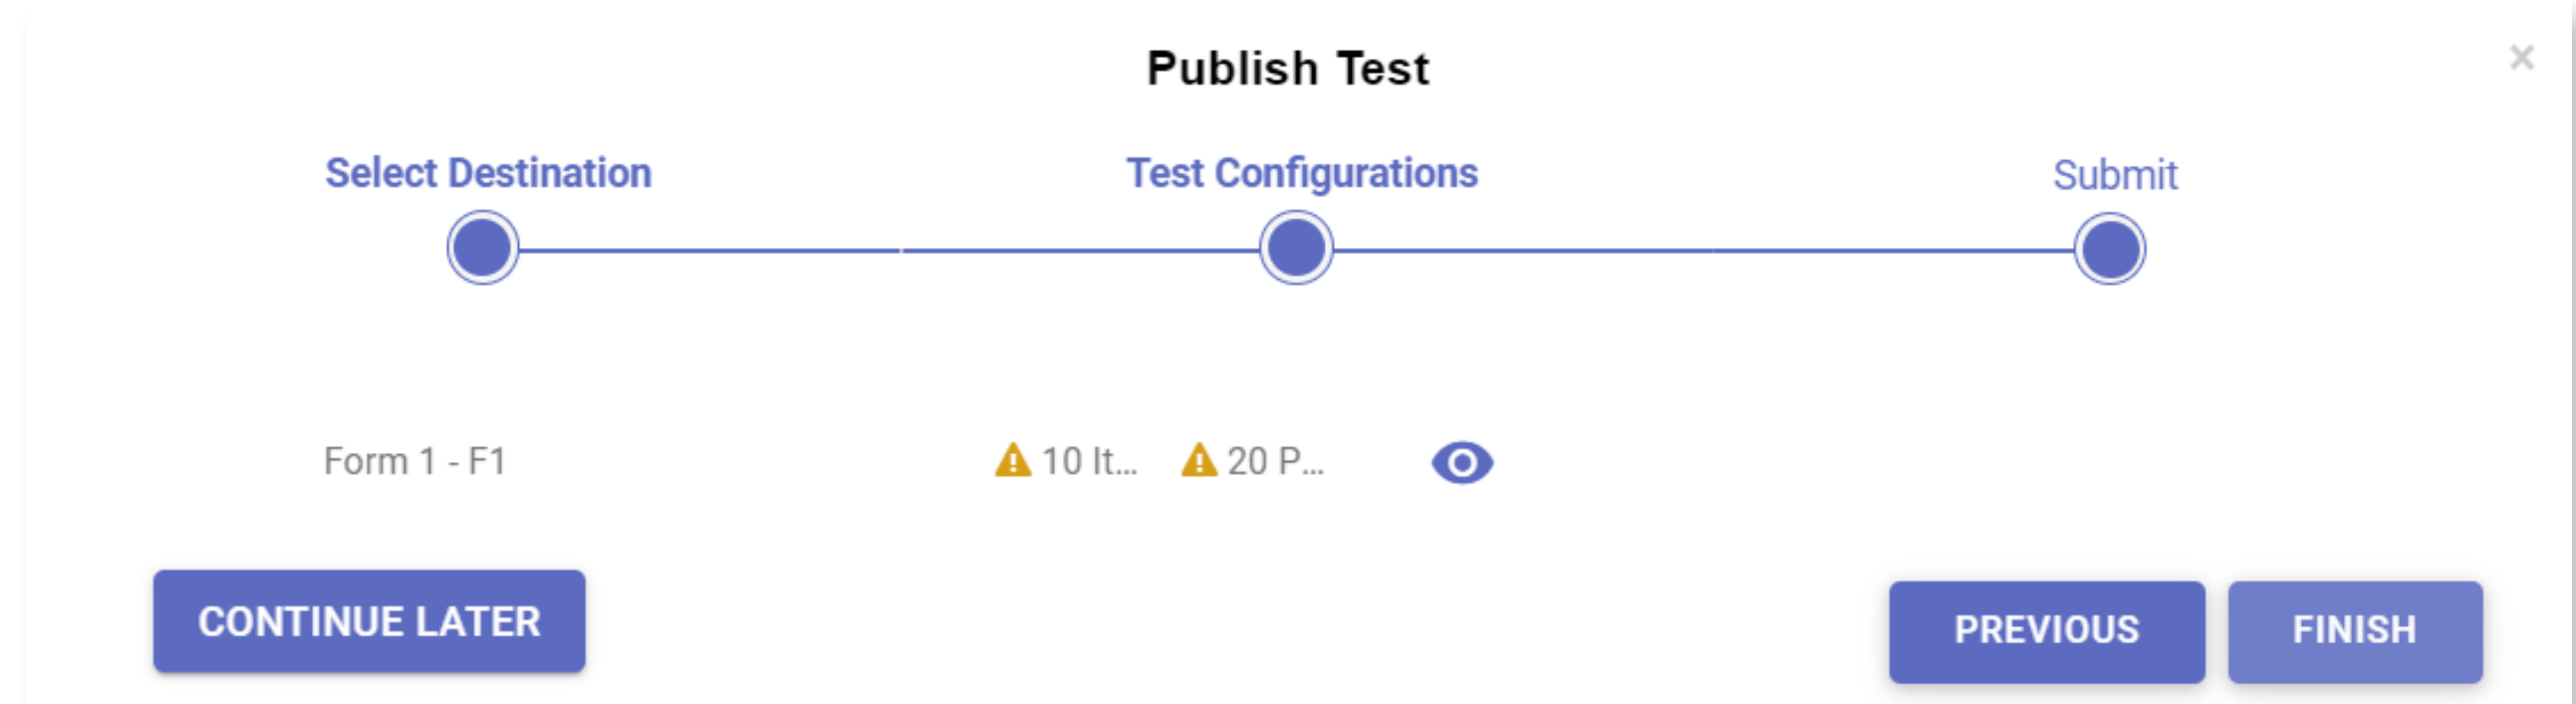

- 7 After clicking on Next, the Test Configurations window will appear, enter the Test total time and the Test total score and select the navigation mode between sections (The traversal mode enables the student to move between sections even after it is finished) and then click on Sections.

- 8 From Sections, Ensure the section settings are identical in all sections, then click Next.

- 9 Click on Finish.

Thus, the test was transferred to the course assessment plan and is ready to be scheduled.
