

Enabling a Safe Assignment in Blackboard Ultra

To enable a safe assignment in Blackboard Ultra, please follow these steps:

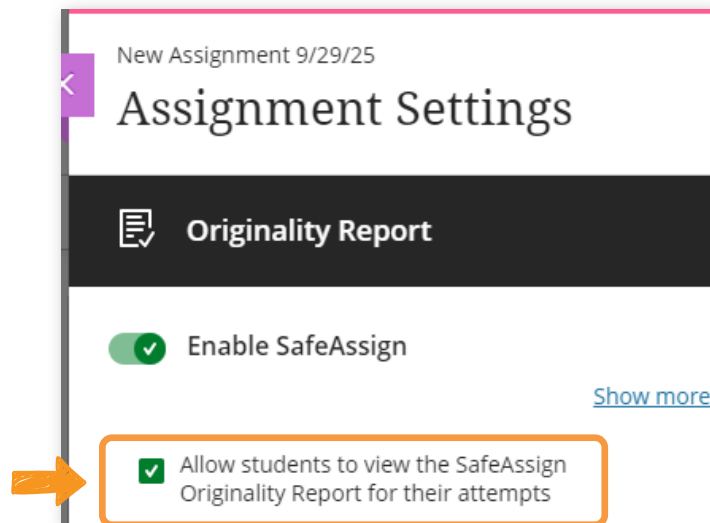

- 1 From Assignment Settings, on the right side of the page, click [SafeAssign Originality Report](#).

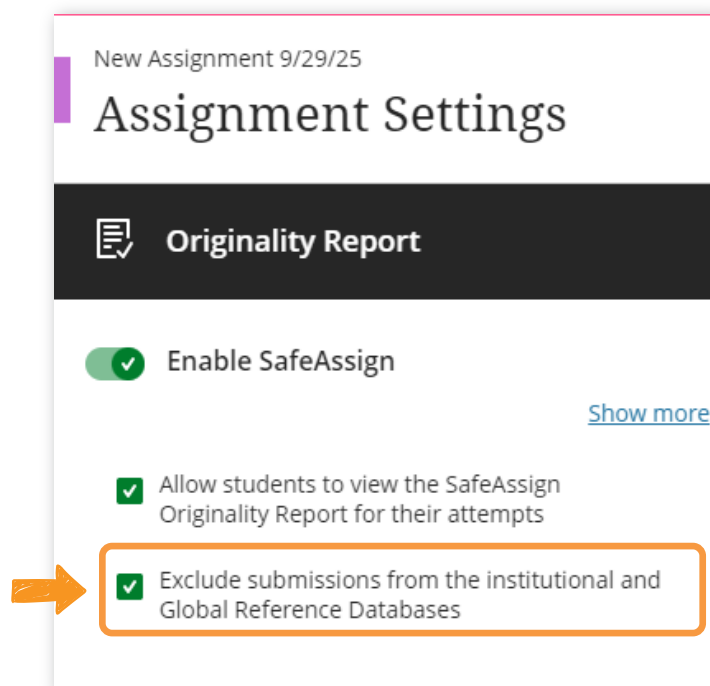

- 2 Click on the icon to [Enable SafeAssign](#).

- 3 Then click on the option **Allow students to view the SafeAssign originality report for their attempts** if you want students to be able to see the originality reports for their assignments.

- 4 Click on the option **Exclude submissions from the institutional and global reference databases** if you do not want student assignments to be stored in the system database.

- 5 Then click on **Save** to enable the SafeAssign originality report.

New Assignment 9/29/25

Assignment Settings

Originality Report

☒ Enable SafeAssign [Show more](#)

☒ Allow students to view the SafeAssign Originality Report for their attempts

☒ Exclude submissions from the institutional and Global Reference Databases

Cancel  **Save**
